HERMES PHARMA PRODUCT PORTFOLIO

HERMES PHARMA has over 40 years of experience in developing and manufacturing user-friendly oral dosages in solid form – including effervescent and orally disintegrating granules, instant drinks, and effervescent and chewable tablets. We work with pharmaceutical companies and producers of food and dietary supplements around the globe to expand their product lines and grow their brands.

HERMES PHARMA offers expert advice and practical customized solutions at every point along the pharmaceutical value chain – from new product development, formulation and analytical development to stability testing, manufacturing and regulatory support.

We work with clients in many different ways – from co-developing brand-new products for specific requirements to licensing products that we have developed in-house. Below you will find a choice of products available for you to in-license. If you are looking for a specific product that is not on this list, please contact us.
